

A few reasons why online audio broadcasting via LAN network or Internet

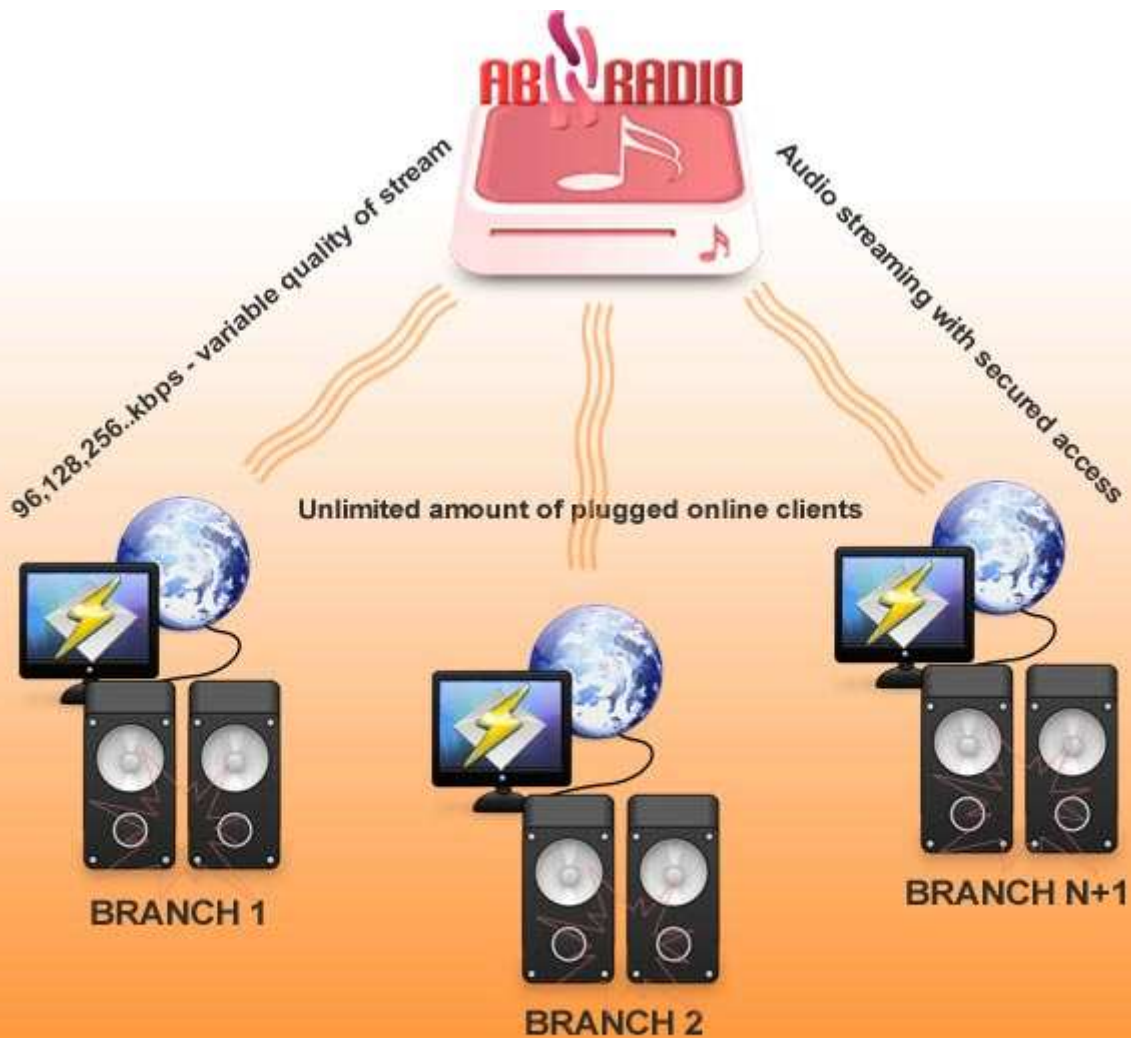

- for playback you need only network access and/or Internet
- your customers or employees mustn't listen to radio editor's choice
- your customers or employees mustn't listen to ads or unwanted speech
- you have choice to create as many playlists as you want
- it's up to you, when your network radio is broadcasting
- the same music (audio) stream in all branches or places
- in case, you need to broadcast own advertisement, it's up to you what amount and when you choose to broadcast in your branch
- better targeting of customer's music taste
- in your broadcasting network, you can broadcast music, that can be never broadcasted on commercial radios

To whom is concerned audio network broadcasting ?

- company's broadcasting of audio stream (songs, recorded speech)
- broadcasting for brand shop networks
- broadcasting for brand cafes and restaurants
- broadcasting for supermarket a hypermarket networks
- any other broadcasting, where you need listen to your own music ideas.
